PRICE SHAVINGS | 1st - 30th April 2015
ONLY WHILE STOCKS LAST

BEAT THE PRICE RISE

Carbatec offers you the highest quality and largest range of woodworking products from around the world. With the continual decline of the Australian Dollar, the price of sourcing and supplying these products has increased significantly. We always aim to provide the best value for money and have worked hard to absorb these changes since October last year, however we now have to review some of our prices.

TAKE ADVANTAGE OF SOME GREAT SPECIALS AND 'LAST CHANCE' PRICES

The new pricing takes effect from 1st May 2015. So during April, take advantage of some great specials, pack offers and a chance to get some of our most popular products before the price rise.

Milled from a solid steel blank, these carbide tipped 1/2" shank rosette cutters make crisp rosettes in most hardwoods and softwoods.
Although these bits look like large router bits, they are too big for normal router speeds and must not be used in a router. They are designed for use in a drill press only.

TITEBOND® II PREMIUM WOODGLUE

The only leading-brand, single-part glue that passes the ANSI Type II water-resistance specification. It is ideal for exterior woodworking projects, including outdoor furniture, birdhouses, mailboxes, planters and picnic tables. Titebond II Premium provides a strong initial tack, fast setting speed, superior strength and excellent sandability. It is USFDA approved for indirect food contact (cutting boards) and is ideal for radio frequency (RF) gluing systems. Available in 237ml, 473ml, 946ml and 3.785 litre sizes.

TITEBOND® III ULTIMATE WOODGLUE

Titebond III Ultimate Wood Glue is the first single-part, water-cleanup wood glue ever offered that is proven waterproof. The waterproof formula passes the ANSI / HPVA Type I water-resistance specification and offers superior bond strength, longer open assembly time and lower application temperature. Titebond III is non-toxic, solvent-free and cleans up with water, making it safer to use than traditional waterproof wood glues. It provides strong initial tack, sands easily without softening and is USFDA approved for indirect food contact (cutting boards). Ideal for interior and exterior applications.

TITEBOND® ORIGINAL WOODGLUE

The industry standard woodworking glue. It provides a strong initial tack and sets quickly to minimise clamping time required. It develops a bond that is stronger than the wood itself. It also has excellent sanding properties and is unaffected by finishes. It is suitable for wood, hardboard, particleboard, leather, cloth and most other porous materials. It is easy to use, non-toxic and cleans up easily with water. Available in 237ml, 473ml, 946ml and 3.785 litre sizes.

U-BEAUT CEDAR WAX - 250ML

Traditional Wax is not sticky or hard to work with, and unlike most other beeswax type polishes it will not attract dust or finger marks. Traditional Wax is easy to apply easy to buff to a shine and leaves the surface of the work with an almost sensual feel. This polish does not give a wet plastic look to the timber but imparts a lustrous and slightly dry looking shine to the work akin to that of a fine antique.

CERAMIC SALT / PEPPER MILL MECHANISM 7"/178MM

The latest and greatest innovation in spice grinding is ceramic mill components. Gone are the days of plastic or nylon components when it comes to dealing with the corrosive properties of salt, and separate metal components to handle hard peppercorns. Ceramic mills have the advantage of handling both salt, and pepper with the one mechanism. Special price is for 7"/178mm mechanism only.

25-NOTE XYLOPHONE KIT INCLUDING MALLET COMPONENTS

The 25-note kit is for a xylophone* that plays a two-octave chromatic scale. Pre-drilled for easy assembly, each zinc-plated steel bar is stamped to indicate the note. The kit contains key pads and two dowel pieces and two pre-drilled balls to make two mallets. You supply the screws, foam backing and material for the body, which can be as simple or elaborate as your skills or needs dictate. Instructions included. Makes a memorable gift. Timber base not included.

*This style of instrument is popularly known as a xylophone. However, its proper name is glockenspiel or metallophone because the bars are metal (not wood).

PUZZLE TRICK BOLTS

Common objects make for good puzzles and what could be more common that a nut and bolt? Although these may look like ordinary nuts and bolts, our trick versions are designed to challenge your expectations.

You get two bolts, each presenting a different puzzle. We can tell you that they measure about 1-1/2" (38mm long). Saying any more might risk revealing clues to their solutions. Of course, once you've figured them out, you can then share them with a friend or neighbour or leave them lying about to trap the unwary. Simple, fun and great desk toys.
